Fax (admin): (905) 727-9129

At this time of such uncertainty it is important we keep communicating. We would like to take this opportunity to let you know that Genpak Flexible is still in full business operation. The health and safety of our customers, employees and their families are an absolute priority to us, and we are doing everything in our power to keep our Genpak Flexible team members and customers safe.

What are we doing?

- We have limited the number of employees to approximately half in the building at all times, still operating 24-hours a day / 7 days a week. This has been strategically scheduled to ensure all machines are running and producing product to keep our customers serviced.
- Our facilities operate following AIB and IFS PACsecure certifications and adhere to strict cleanliness and hygiene protocols. We have increased awareness and training in those areas to ensure a safe environment for our manufacturing team members. We have also increased our Sanitation team members, to execute more detailed and effective cleaning practices.
- We are practicing social distancing with our entire Genpak Flexible family. Meetings, both internal and external, are being held via teleconference and video conference methods.
- Our company COVID-19 dedicated team has been established to monitor our business and ensure decisions are made that will keep operations and communications flowing.
- Customers may contact us via our phone line, by email and through our website www.genpakflexible.com at any time.

Working together, we will come through this stronger.

A handwritten signature in black ink that reads "Rick Vanderwert". The signature is written in a cursive style with a large, stylized initial "R".
